

## Program - 1

\* Insert node at beginning :-

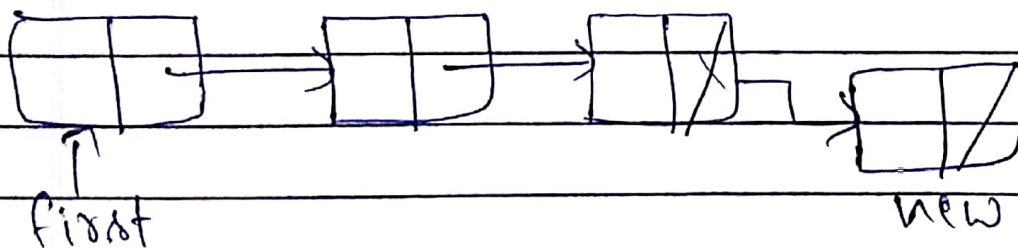

```
Node new = getnode();
```

```
new->next = NULL and first;
```

```
first = new;
```

```
return first;
```

\* Insert node at end;

```
Node new = getnode();
```

```
tail->next = tail->next NULL or new;
```

```
tail = new;
```

```
return first;
```
